Building Materials

” Our innovative services and solutions extend across all the main sectors in the Kingdoms’ markets, covering all diverse and vital sectors in the Kingdom.”

We are always ahead.
Professional
Solutions for Your
Business.

2030 Vision

Success stories are always driven by vision, those successful visions that build on strengths, it is **the vision of the Kingdom 2030**, the vision of the present for the future that we want to start working today for tomorrow, we are committed to God and our wise leadership to join hands to complete the construction of our country to be as you envision. We do not accept anything for our homeland other than for it to be strong and prosperous in the forefront of the world, it is not appropriate for the homeland. Together and with you, the Kingdom will be a great country to be proud of, God willing.

Company **Overview**

“ We have evolved through decades to become one of the best KSA’s leading trading, construction, building, and integrated related solutions companies “

We've Proven

From a humble startup in 1986 focused on wholesale building materials trading and retail trade of merchandise, promotional materials, and the activity of selling books, the founder **Dr.**

Abdulmueeen Al Shawaf succeeded through an ambitious strategic vision to uplift his business by expanding into all areas of trading and contracting within the Kingdom.

Our story concerns excellence, passion, ambition, efficiency, teamwork, and efficiency. We harness the power of our long experience, stretching back over three decades, to deliver certainty for our clients. Inspiring ourselves from the great booming of the development march conducted by the custodian of two mosques, King Salman bin Abdulaziz and his crown prince Muhammed bin Salman, God saves them towards realizing the **Kingdom 2030 vision.**

For three brilliant decades, we have worked to establish deep roots in many diverse sectors in building materials, marketing of heavy equipment machinery, fit-out, furniture, and steel manufacturing, besides financial communications, activities related to art production, digital screens, event management, and other fields.

We at Al-Shawaf International Company are proud of the successes it has achieved in the various commercial activities that it entered with confidence and competence, which was one of the fruits of the expansion of the scope of the company's work and the spread of its branches in all regions of the Kingdom of Saudi Arabia as well as in the United Arab Emirates, Turkey, and China.

Our Strategy

Our strategy is to be the preferred local partner specialist contractor focused on sustainable markets and attractive projects generating sustained value for our partners. Our local businesses will leverage the company's scale and expertise to deliver integrated engineering solutions and optimal operational excellence, aiming to drive market share leadership in our selected segments.

Execution Pillars

Balanced Projects

We select sustainable markets (location, sector, and product) to establish base businesses and attractive projects.

Operational Excellence

We are operational leaders in safe, efficient, on-time, high-quality delivery and relentlessly strive to improve our operational capabilities.

Engineering Solutions

We offer the best solutions to our customers by providing alternatives, value engineering, and by investing in innovation and cutting-edge technologies.

Expertise & Efficiency

We develop our people, operational system, and assets and leverage the unique strength of our technical, operational, commercial, and financial resources.

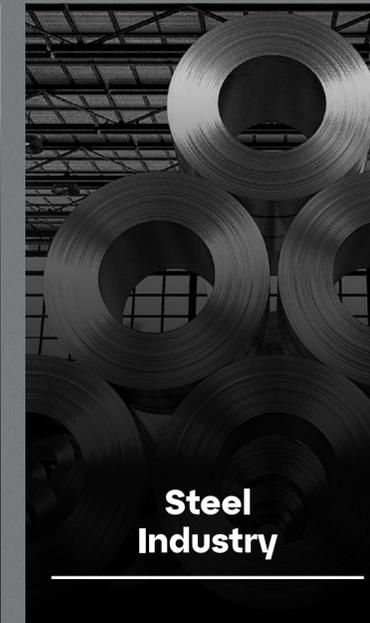

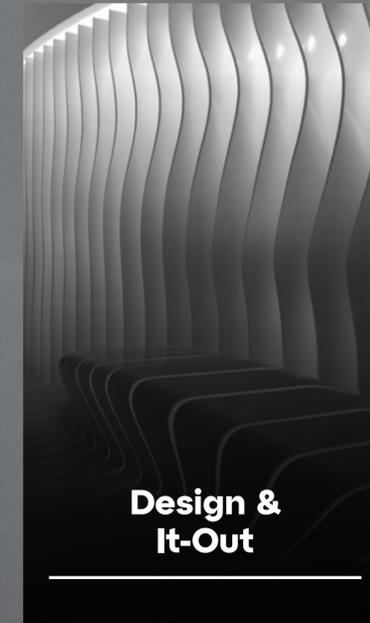

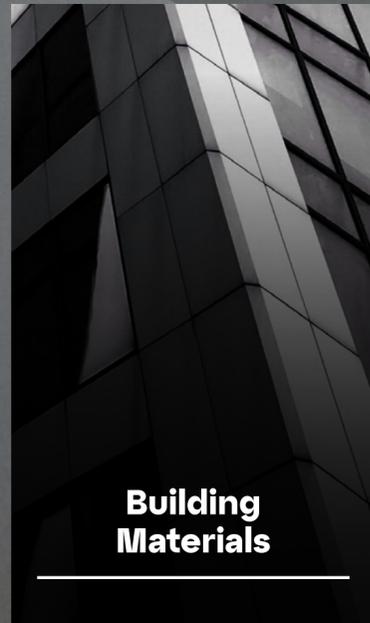

“ Our innovative services and solutions stretch across all the main sectors in the kingdom markets to cover all the diverse vital sectors in the Kingdom “

We at Alshawaf International Company are proud to be a leading provider of authenticated high-quality building materials and products and a significant construction company across Saudi Arabia. The key to success is to ensure that the very best standards of quality and high levels of customer service are at the forefront of any business, and this is one reason why we have continually grown and developed as a business for decades.

The Group consists of the following companies:

Al Shawaf Ceilings

“ We cater to a wide variety of ceiling requirements. Be it aesthetic, functional, or a fine blend of both, our products and solutions aim to incorporate your preferences and our expertise ”

We have all types of ceilings that cover all your designs & specifications with different material types such as metal ceiling, mineral fiber, wood, fabric, and gypsum.

Our service is not only delivery & professional submittal; we also provide unique design solutions for your projects and perfect shop drawings & details to support your submittal and installation.

We have all standard sizes (600x600, 600x1200, 300x600, 300x300). Also, we can manufacture any custom size you need with different thicknesses starting from 0.6 mm to 1.5 mm.

Many models are available:

- Lay-In System 15/24 Mm
- Hook-On System
- Baffle System
- Geometric System
- Multi-Panel System
- Clip In The Open Cell System
- Mesh System
- Triangle System
- Island System
- Multi-Panel System

OUR PRODUCTS make the technology a goal to follow. Products are produced with 3D drawing programs and CNC machines. The technologies used bring production flexibility and productivity to customer satisfaction, and the products are becoming more in demand in the market.

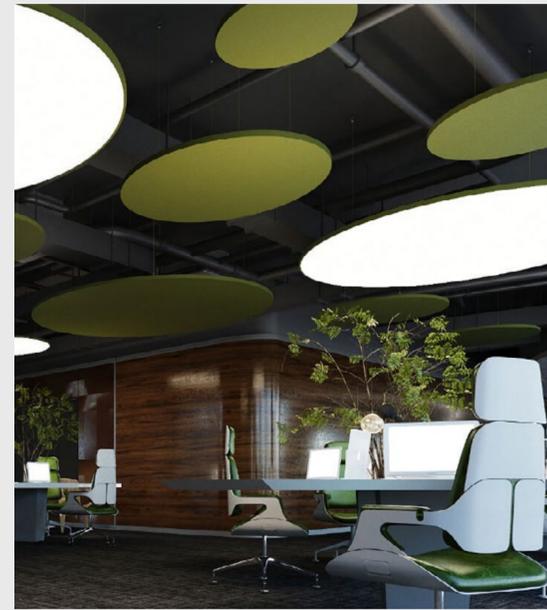

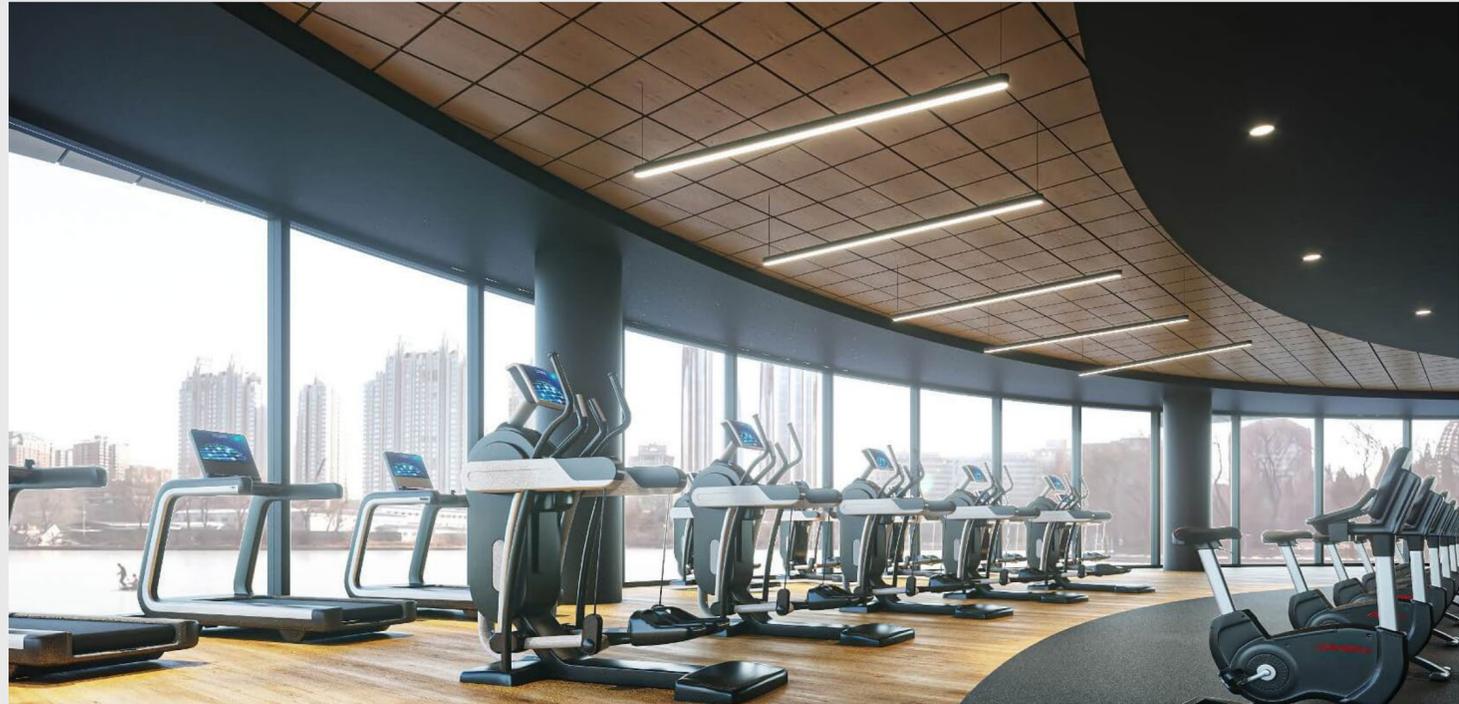

Mineral Fiber

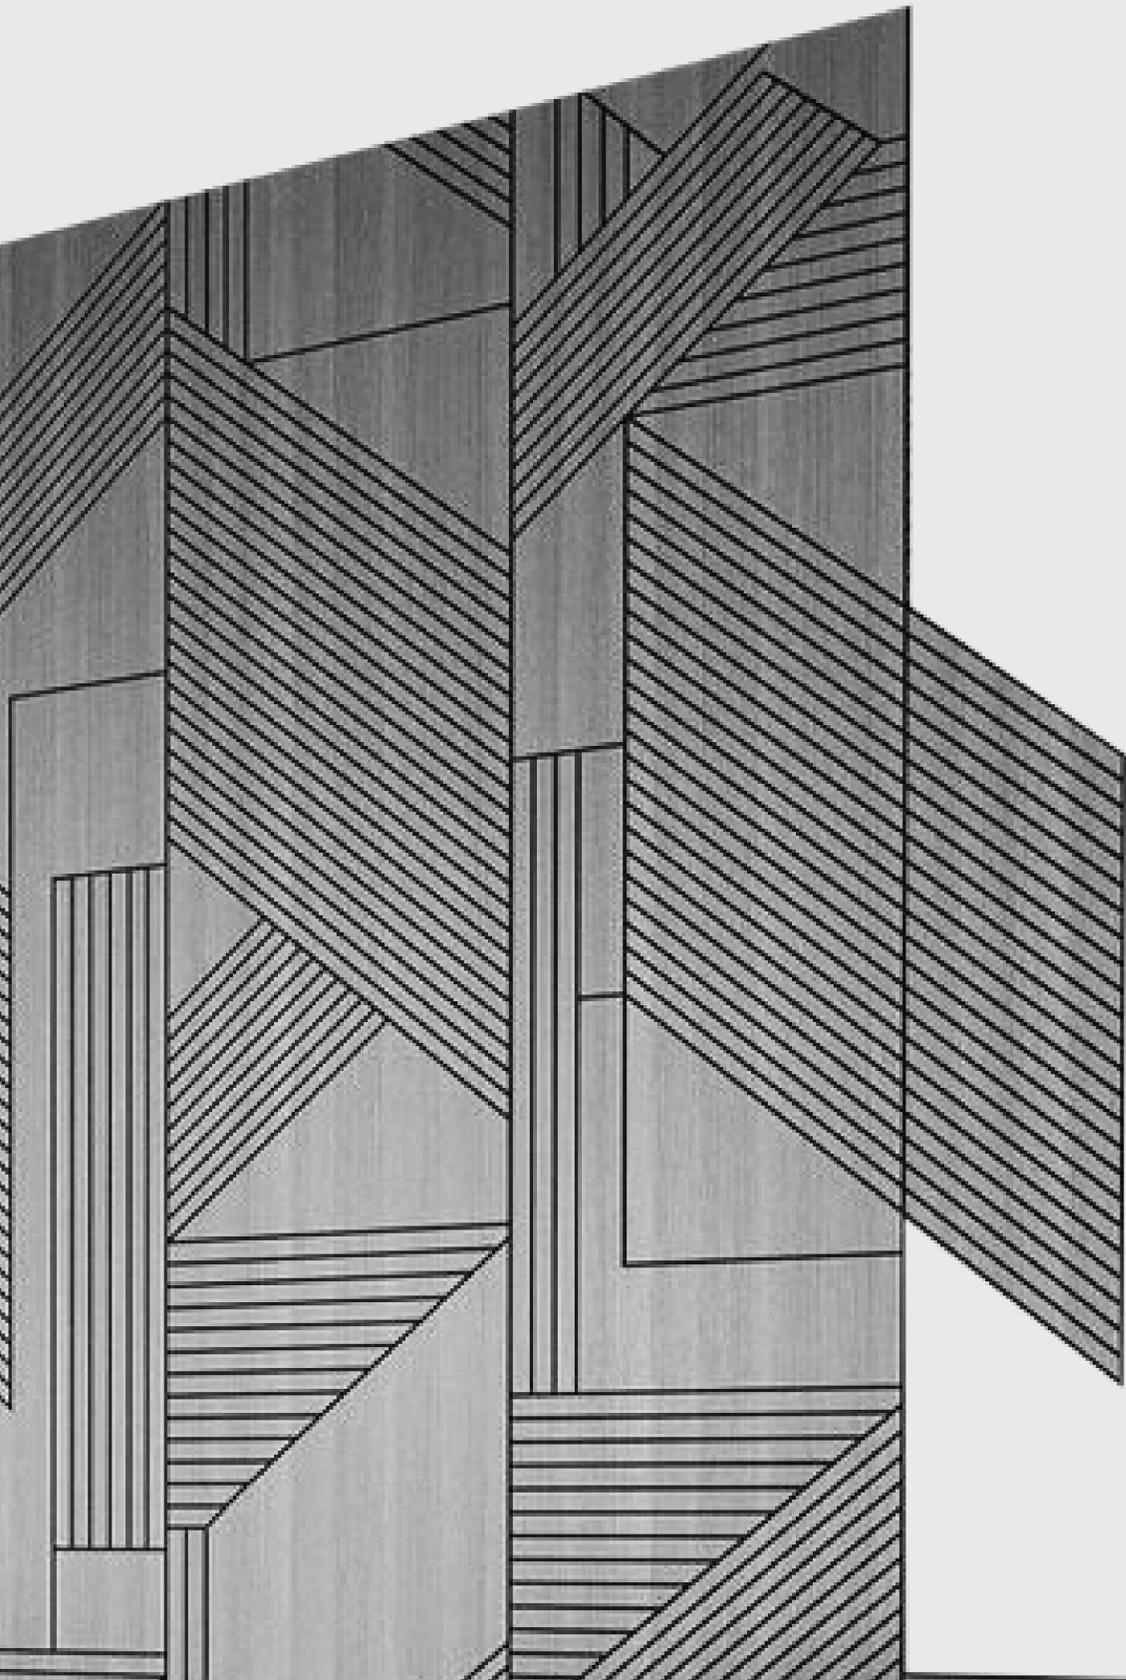

We have ideal acoustic solutions with different kinds of soft fiber ceiling systems for each type of interior. The sound must reach the audience with the most minor echo and maximum clarity in places such as schools, theaters, and conference halls. Unwanted noise in the room dramatically annoys us and breaks our concentration, especially when doing a crucial task.

Noise can not only reduce the overall productivity of employees but also create a stressful environment. Interior acoustic plays a vital role in maintaining a focused and work-friendly environment within the area. Having a suitable solution to match all areas such as offices, hotels, receptions, meeting rooms, university, cinema, auditorium.

Acoustic Ceiling Unites

Mineral Ceiling panels are known for their outstanding physical properties. This is achieved with the individual production process and the unique raw material used to manufacture our products. Thousands of different products are manufactured in our production plant, varying in edge detail, sizes, and face patterns. Quality is, of course, always our top priority. Our production plant is constantly tested and improved to attain the optimum standard. In this way, we can guarantee the continuous development of quality. We maintain environmentally friendly production and other options for antibacterial, hygiene, and high acoustic performance tiles.

Al Shawaf
**Partition &
Wall Cladding**

“ Our paneling system can be used as internal wall panels and exterior wall cladding, available in different finishes suited to additional aesthetic requirements ”

FABRIC & ACOUSTIC CLADDING

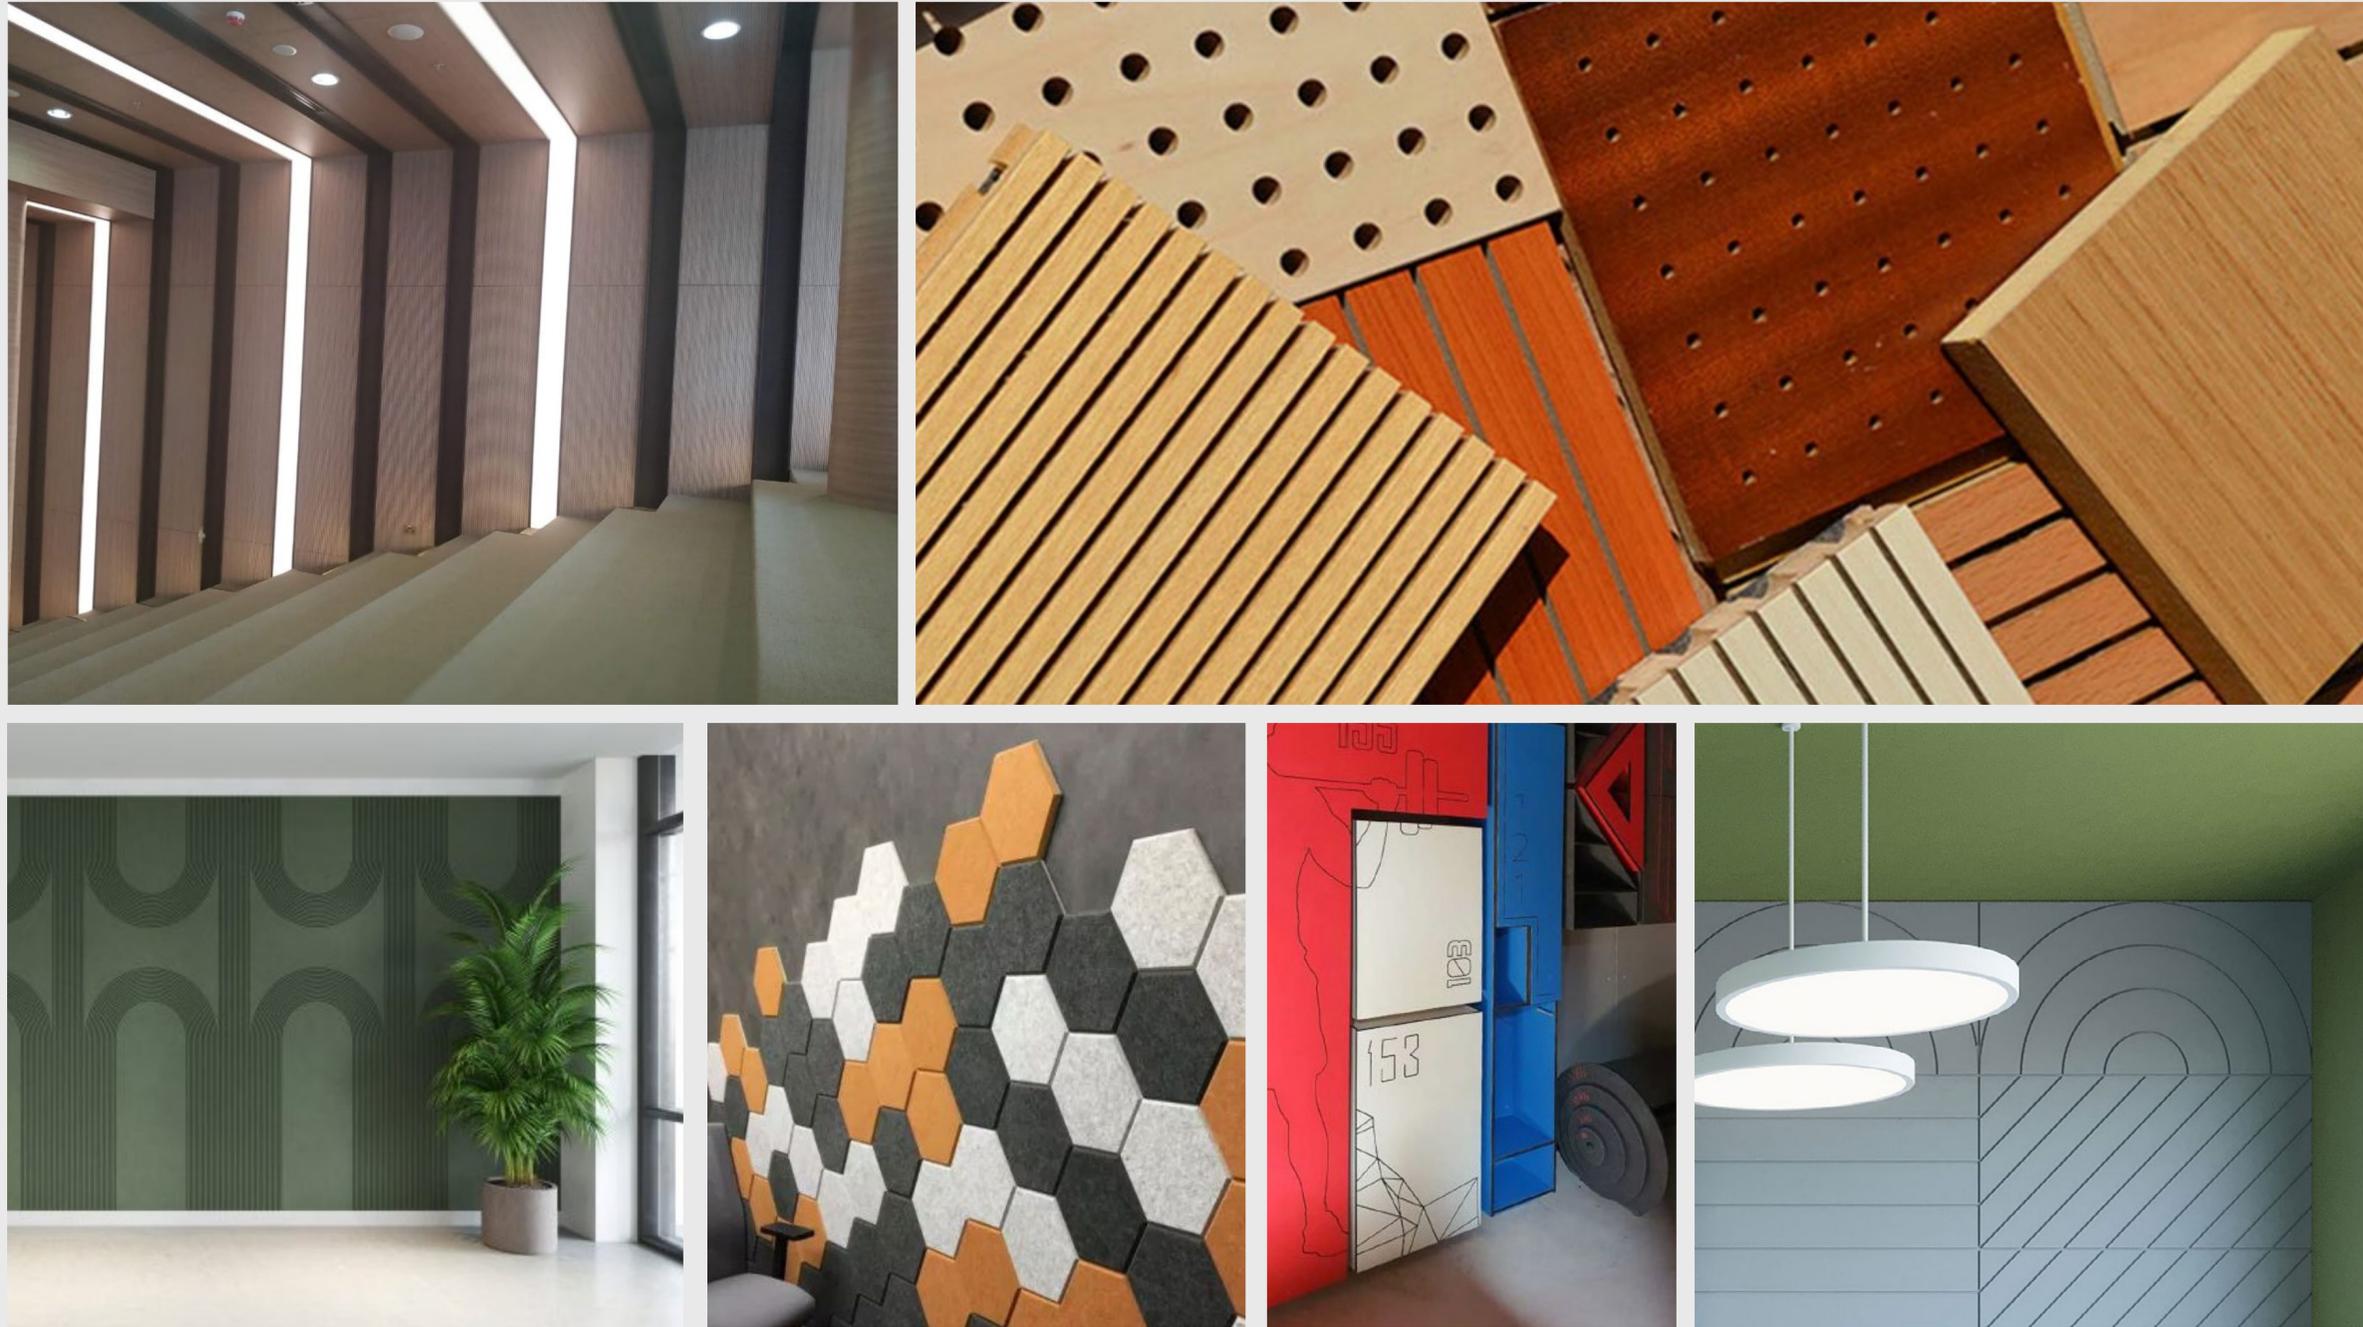

We provide an acoustic panel wrapped with acoustic transparent fabric. It reduces disturbing noise reflections, improves interior acoustics, reduces reverberated noise, and provides a better acoustic environment. The meetings are rectangular with smooth vertexes and curved perimeter edges. It is designed to achieve maximum sound absorption at a specific acoustic range band. Our team of acoustic engineers can assist in choosing the acoustic panel with the adequate proper absorption index (as) for your project according to ISO 354.2003 and ISO 11654.1997.

WALLPAPER

We have a wide range of wallpaper from paper & vinyl for all purposes, residential, hotels, offices, and hospitals with unique designs & colors.

HPL & WOOD CLADDING

Al Shawaf Intl provides solutions for cubical partitions for toilets and wood cladding; our material is Stratified, offering excellent functional and aesthetic qualities. Its resistance to wear and vapor, its hygienic. Ideal for all applications where strength and design need to be combined, HPL, which can be supplied in many production grades, is the most qualitatively reliable material and the one with the most extensive aesthetic potential for building change rooms, shower and toilet, cubicles, lockers, cabinets, benches, partition walls and doors in such diverse public environments as health spas, gyms, resorts, swimming pools, hotels, sports centers, schools and kindergartens, factories, hospitals and laboratories. HPL maintains its aesthetic and performance characteristics for the entirety of its life cycle.

Al Shawaf **Flooring**

“ We provide all the flooring products and raw materials used to fit offices, residential, pavements, roads, and other architectural structures ”

Wood Flooring

Luxurious and elegant touches in the place would only be completed using wooden floors from Al-Shawaf Company. Therefore, we were keen to provide a variety of colors and various types from the finest types of wood, such as beech, pine, oak, maple, etc., and our choices vary between solid wood, engineered wood, and parquet wood.

Carpet

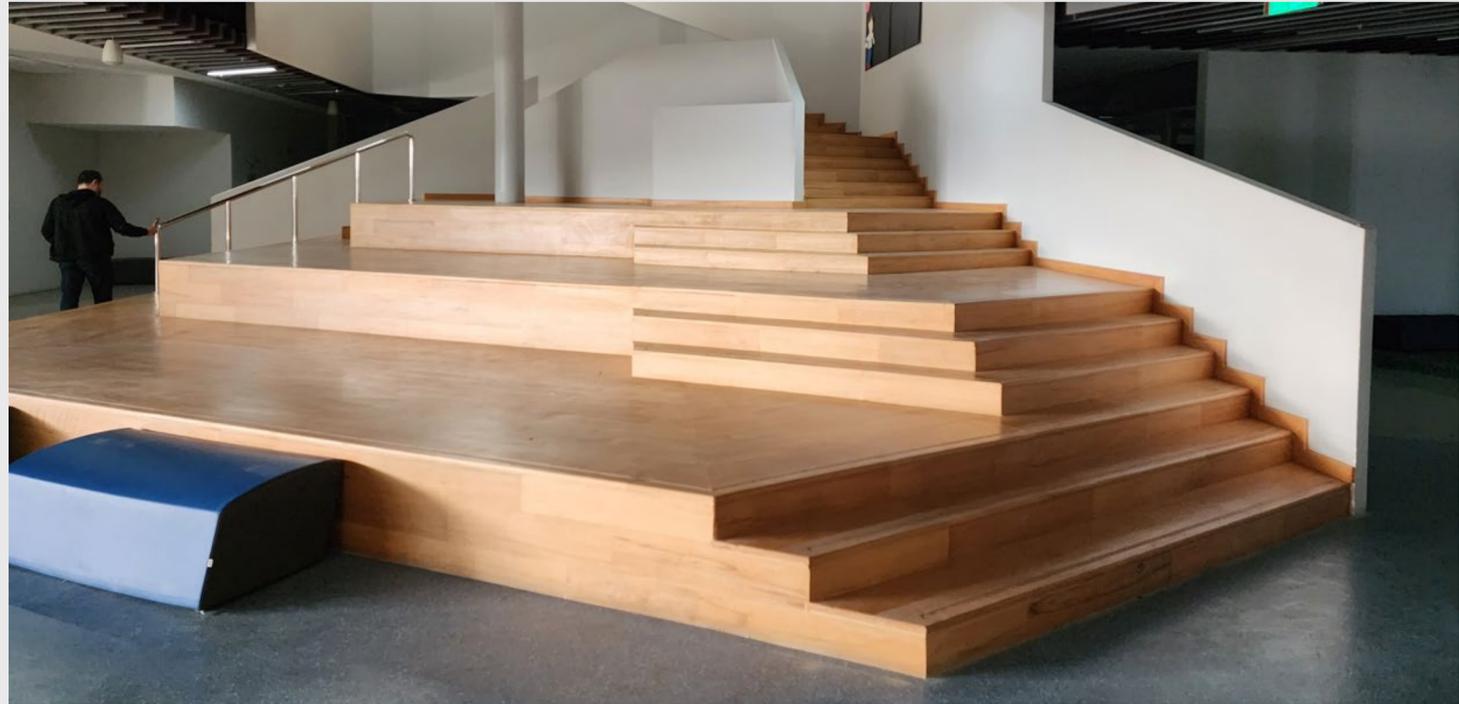

We have many models, patterns, and colors to match your project design, and our physical properties can meet your project specifications. Also, our technical team can help you by providing a color scheme to assist your choice.

Rubber

We have the solutions for sport & multipurpose flooring, with durable materials and excellent design; we also can provide the installation service by a professional team taking care of the minor points.

Raised Floor

We can provide you with the best solution for raised levels of your project by different material types such as wood core, cement, calcium salophen with additional surface cover: steel, vinyl, HPL.

Al Shawaf
