Company **Overview**

“ We have evolved through decades to become one of the best KSA’s leading trading, construction, building, and integrated related solutions companies “

We've Proven

From a humble startup in 1986 focused on wholesale building materials trading and retail trade of merchandise, promotional materials, and the activity of selling books, the founder **Dr.**

Abdulmueeen Al Shawaf succeeded through an ambitious strategic vision to uplift his business by expanding into all areas of trading and contracting within the Kingdom.

Our story concerns excellence, passion, ambition, efficiency, teamwork, and efficiency. We harness the power of our long experience, stretching back over three decades, to deliver certainty for our clients. Inspiring ourselves from the great booming of the development march conducted by the custodian of two mosques, King Salman bin Abdulaziz and his crown prince Muhammed bin Salman, God saves them towards realizing the **Kingdom 2030 vision.**

For three brilliant decades, we have worked to establish deep roots in many diverse sectors in building materials, marketing of heavy equipment machinery, fit-out, furniture, and steel manufacturing, besides financial communications, activities related to art production, digital screens, event management, and other fields.

We at Al-Shawaf International Company are proud of the successes it has achieved in the various commercial activities that it entered with confidence and competence, which was one of the fruits of the expansion of the scope of the company's work and the spread of its branches in all regions of the Kingdom of Saudi Arabia as well as in the United Arab Emirates, Turkey, and China.

Our Strategy

Our strategy is to be the preferred local partner specialist contractor focused on sustainable markets and attractive projects generating sustained value for our partners. Our local businesses will leverage the company's scale and expertise to deliver integrated engineering solutions and optimal operational excellence, aiming to drive market share leadership in our selected segments.

Al Shawaf
Interior Design

At Al Shawaf, interior design is not just a practice but an art form. We blend timeless craftsmanship with a contemporary vision to breathe life into every project. Recognizing the need for holistic interior solutions, we seamlessly integrate creativity with functionality, creating harmonious spaces.

From conceptualization to realization, Al Shawaf Interior Design guides you through a seamless process. Our involvement begins at the drawing board as visionary architects and extends to flawlessly executing the design, ensuring an outcome that exceeds expectations. With design offices in Portugal and Slovenia, our services encompass comprehensive project consultation, meticulous development, and impeccable execution.

Al Shawaf Interior Design simplifies the intricate task of interior creation, ensuring a delightful experience in crafting your dream space. In essence, Al Shawaf Interior Design embodies a legacy of excellence, a spirit of innovation, and an unwavering dedication to perfection. Join us in crafting spaces that transcend the ordinary, embodying synergy, creativity, and leaving an indelible impression. Your space, your story - beautifully curated by Al Shawaf Interior Design.

Longue Chairs

Upholstery is a craft that doesn't demand only a man but his soul. Only a dedicated master is the one who delivers good products from his hands whether it be an armchair, a sofa, a divan, or a couch set. We don't have a serial production, each piece is unique. Because there is a lot of handwork in each created piece, not even two couch sets or two armchairs are exactly the same. Not only that you get furniture made-to-measure, but we deliver furniture you have dreamed of. We encourage sustainable use, quality, and eternal design. Couch sets are of such a quality that people don't change them according to the actual consumer cycle, and don't create unnecessary.

Silent Furniture

Silent furniture has been developed for a simple reason - to bring back peace and privacy to open offices. Innovative design and sound-friendly construction materials achieve significant noise reduction. The interior is friendly, and the upholstery provides a general sense of comfort.

Exclusive Furniture

“Joining the use of the most exquisite materials with a bold and luxurious design, we make exclusive “art-furniture” pieces of great visual impact that will provide a world of new experiences and feelings to our customers.”
